

Liberty City Life Clan Application Example

When you are filling out an application do not rush it. Believe it or not but when an employer is hiring they take the application process into high consideration. Not providing enough information will get your application declined, resulting in you having to re-apply back in 3 weeks. Do not submit multiple application as this is called spamming and will annoy the employer. Before you click the submit button review your application, is it acceptable? What if you were the employer reviewing it, how does it look?

This is an example of an excellent application: (This is not a template do not copy)
